

Want help to find the lucky number.

Your membership number is on the back of your membership badge.

The first two digits are the year you joined. (for those joining earlier than 2008 it will show 08)

The last three digits is your membership number.

In the website look through each page which can be opened from the navigation bar – that is each of the "blue" names above.

The number will only ever be in one of those pages, not any links from those pages.

Should you find the number displayed is your number (it must have the correct year and membership number as per your badge) then you must attend the next Monthly Meeting and Stand up in the Meeting when requested to do so.

We will not accept emails or any other form of advice that the number is yours.

Happy hunting.
